

**FORMATO EUROPEO
PER IL CURRICULUM
VITAE**

TORINO, 4 OTTOBRE 2016

INFORMAZIONI PERSONALI

Nome **SANSOÈ GIOVANNI GIUSEPPE**

Data di nascita 15 AGOSTO 1964

ESPERIENZA LAVORATIVA

- Date (da – a) Luglio 1998 - oggi
 - Nome e indirizzo del datore di lavoro Ospedale Gradenigo, Corso Regina Margherita 10, 10153 Torino
 - Tipo di azienda o settore Presidio Sanitario del Servizio Sanitario Nazionale
 - Tipo di impiego Dirigente Medico di 1° livello in Gastroenterologia ed Endoscopia Digestiva, Div. Gastroenterologia, Ospedale Gradenigo, Torino, Italia.
 - Principali mansioni e responsabilità Dirigente Medico. Attività clinica in campo epatologico, gastroenterologico ed endoscopico.
- 2011 -2014**
Consulente scientifico a contratto con la Shire Pharmaceutical Development Limited, Basingstoke, Sussex, England.
Studio di farmaci diuretici ed acquarettici sperimentali nel modello di cirrosi epatica murina in collaborazione con l'Università degli Studi di Torino – Corso Raffaello 32 – Torino, Dipartimento di Medicina ed Oncologia Sperimentale (Dir. Prof. M. Parola).
- Luglio 2008-Ottobre 2008 (nel corso di aspettativa non retribuita rilasciata dall'Ospedale Gradenigo)
Liver Unit, Foothills Medical Center, University of Calgary, Alberta, Canada.
Clinical Associate Professor in Hepatology.
Professore a contratto in Epatologia.
- Giugno 2004-Luglio 2005 (nel corso di aspettativa non retribuita rilasciata dall'Ospedale Gradenigo)
Liver Unit, Toronto General Hospital, University of Toronto, Ontario, Canada.
Clinical Fellowship in Hepatology.
Attività di investigazione clinica nella cirrosi epatica sotto la supervisione della Prof. Florence Wong.

ISTRUZIONE E FORMAZIONE

- Date (da – a) 1992-1996
- Nome e tipo di istituto di istruzione o formazione *Corso di Specializzazione in Gastroenterologia ed Endoscopia Digestiva*
- Principali materie / abilità professionali oggetto dello studio Specializzazione in Gastroenterologia ed Endoscopia Digestiva presso l'omonima scuola dell'Università degli Studi di Modena e Reggio Emilia con voto di 50/50 con lode (15 Novembre 1996).
- Qualifica conseguita

- Date (da – a) 10-12-1995
- Nome e tipo di istituto di istruzione o formazione *University of Cambridge, Cambridge Institute, sede di Modena.*
- Qualifica conseguita *Cambridge First Certificate in English*

- Date (da – a) 1983-1990
- Nome e tipo di istituto di istruzione o formazione *Laurea in Medicina e Chirurgia presso la facoltà di Medicina dell'Università degli Studi di Torino con voto di 110/110 con lode (29 Marzo 1990).*
- Materie / Abilità professionali *Laurea in Medicina e Chirurgia*

- Date (da – a) 1978-1983
- Nome e tipo di istituto di istruzione o formazione *Liceo Scientifico A. Gramsci di Ivrea (TO)*
- Principali materie / abilità professionali oggetto dello studio *Maturità scientifica con voto di 60/60*

CAPACITÀ E COMPETENZE

PERSONALI

Acquisite nel corso della vita e della carriera ma non necessariamente riconosciute da certificati e diplomi ufficiali.

MADRELINGUA

ITALIANO

ALTRE LINGUE

INGLESE BRITANNICO ED AMERICANO. CAMBRIDGE FIRST CERTIFICATE IN ENGLISH SUPERATO A PIENI VOTI BEN PRIMA – NEL 1995 - CHE LA MIA PRATICA PROFESSIONALE DELLA LINGUA INGLESE TRAESSE ULTERIORE SVILUPPO DALL'USO COSTANTE DURANTE I MIEI SOGGIORNI IN CANADA O IN SEDI CONGRESSUALI INTERNAZIONALI (VIDE INFRA).

- Capacità di lettura
- Capacità di scrittura
- Capacità di espressione orale

ECCELLENTE

ECCELLENTE

ECCELLENTE

CAPACITÀ E COMPETENZE

RELAZIONALI

Vivere e lavorare con altre persone, in ambiente multiculturale, occupando posti in cui la comunicazione è importante e in situazioni in cui è essenziale lavorare in squadra (ad es. cultura e sport), ecc.

Lavorare in ambiente multiculturale, multietnico e scientificamente stimolante. Mie capacità specifiche spaziano da una consolidata inclinazione all'attività clinica ed endoscopica alla organizzazione di programmi di ricerca epatologica clinica e di base di livello (vide infra) nel campo delle complicanze dell'ipertensione portale e della cirrosi avanzata.

CAPACITÀ E COMPETENZE

ORGANIZZATIVE

Ad es. coordinamento e amministrazione di persone, progetti, bilanci; sul posto di lavoro, in attività di volontariato (ad es. cultura e sport), a casa, ecc.

IDEAZIONE E PROGETTAZIONE DI PROTOCOLLI DI RICERCA CLINICA E DI BASE NELL'AMBITO DELL'INDAGINE DELLE COMPLICANZE IPERTENSIVE PORTALI DEL PAZIENTE CON CIRROSI EPATICA AVANZATA (END-STAGE LIVER DISEASE). GESTIONE CLINICA ACCURATA DELLE COMPLICANZE IPERTENSIVE PORTALI E SISTEMICHE DEL PAZIENTE CON CIRROSI EPATICA AVANZATA. SCRITTURA IN PRIMA PERSONA DEI PAPERS SCIENTIFICI DA ME PUBBLICATI (VIDE INFRA).

CAPACITÀ E COMPETENZE

TECNICHE

Con computer, attrezzature specifiche, macchinari, ecc.

BUONA COMPETENZA INFORMATICA, CONOSCENZA APPROFONDIRITA DELLA LINGUA INGLESE (NELLE SUE VARIANTI BRITANNICA ED AMERICANA).

CONSOLIDATA ESPERIENZA ENDOSCOPICA NEL TRATTAMENTO DEI PAZIENTI CON EMORRAGIA DIGESTIVA SUPERIORE O INFERIORE, NELLE POLIPECTOMIE COMPLESSE DEL COLON, NELLA ESTRAZIONE DI CORPI ESTRANEI DAL TRATTO DIGESTIVO SUPERIORE, NEL TRATTAMENTO PROTESICO DI STENOSI ETEROPLASTICHE DEL COLON.

ACCURATA ED AFFINATA COMPETENZA CLINICA NELLA GESTIONE DEL PAZIENTE CON EPATOPATIE AVANZATE E SCOMPENSATE, CON SPECIFICHE COMPETENZE COMPLEMENTARI NEFROLOGICHE, EMODINAMICHE, CARDIOLOGICHE E FARMACOLOGICHE (VIDE INFRA).

CAPACITÀ E COMPETENZE

ARTISTICHE

Musica, scrittura, disegno ecc.

ALTRE CAPACITÀ E COMPETENZE

Competenze non precedentemente indicate.

PATENTE O PATENTI

**ULTERIORI INFORMAZIONI
ED ALLEGATI**

G. Sansoè conduce programmi di ricerca nel campo delle complicanze ipertensive portali della cirrosi epatica, in collaborazione con le Cattedre di Gastroenterologia e di Patologia Generale dell'Università di Torino.

G. Sansoè è stato invitato a presentare comunicazioni orali o special lectures ai seguenti meeting nazionali o internazionali:

- meeting annuale della American Association for the Study of Liver Diseases (AASLD) nel 2004, 2006, 2013, e 2014 (4 comunicazioni orali);
- Digestive Disease Week (DDW) nel 2003, 2004, 2009, e 2012 (7 comunicazioni orali);
- meeting annuale della European Association for the Study of the Liver (EASL) nel 1998, 2004, 2007, 2010 e 2012 (6 comunicazioni orali);
- United European Gastroenterology Week (UEGW) nel 2002 (2 comunicazioni orali);
- meeting annuale della Associazione Italiana per lo Studio del Fegato (AISF) nel 1998, 2000, 2003, 2006, 2007, 2010, 2012, e 2015 (10 comunicazioni orali);
- meeting annuale della Società Italiana di Gastroenterologia (SIGE) nel 1994, 1997, 2000, 2003, 2004 e 2007 (7 comunicazioni orali);
- World Congress of Gastroenterology (WCOG) nel 2005 (Montreal, Quebec, Canada);
- International Liver Congress (ILC) nel 2006 (Shanghai, China);
- invited lecture a International Congress on Drug Development and Therapy (ICDDT) nel 2011 (Dubai, Emirati Arabi Uniti);
- lecture al meeting Liver Down Under nel 2011 (Perth, Australia),
- invited lecture al meeting Nephrology and Therapeutics nel 2014 (Valencia, Spagna), etc.

G. Sansoè è invited reviewer per le seguenti riviste mediche: Gut, Journal of Hepatology, American Journal of Kidney Diseases, etc.

G. Sansoè ha pubblicato articoli originali come principale autore nelle seguenti riviste mediche: Gut, Journal of Hepatology, Clinical Sciences, American Journal of Physiology, American Journal of Gastroenterology, Journal of Internal Medicine, Journal of Physiology and Pharmacology, etc.

Special lectures.

1. Sansoè G. Inhibition of Chymase-dependent production of kidney Angiotensin II improves renal sodium handling and prevents ascites in experimental liver cirrhosis. Lecture. 3rd International Conference on Nephrology and Therapeutics. Valencia, Spain, June 2014.
2. Sansoè G. Ascite e sindrome epatorenale (Ascites and hepatorenal syndrome). Invited lecture. Convegno: Approccio multidisciplinare al paziente con cirrosi epatica (Meeting: Multidisciplinary approach to the liver cirrhotic patient). Organized by the Italian Association of Hospital Gastroenterologists - AIGO). Savona, Italy, October 2013.
3. Sansoè G. Ascite refrattaria: quale approccio e strategia? (Refractory ascites: approach and strategy). Invited lecture. VII° Corso residenziale avanzato in Epatologia (7th residential advanced course in Hepatology. Organized by the Italian Association of Hospital Gastroenterologists - AIGO). Garda (VR), Italy, May 2012.
4. Sansoè G, Aragno M, Mastrocola R, Mengozzi G, Paternostro C, Smedile A, Rizzetto M, Parola M. Key role of chymase in the hepatic production of angiotensin II and in the development of experimental liver cirrhosis and its complications. Lecture. Liver Down under 2011. Perth, WA, Australia, December 2011.
5. Sansoè G. Portal Hypotensive Action of Calcimimetic Agents in Rats with CCl₄-induced Ascitic Liver Cirrhosis. Invited lecture. 3rd International congress on drug discovery and therapy (3rd ICDDT). Dubai, U.A.E., February 2011.
6. Sansoè G. Calcium-sensing Receptors (CaRs) and pathogenesis of ascites in

Comunicazioni orali in meetings nazionali o internazionali.

1. Sansoè G, Aragno M, Mastrocola R, Parola M. Guanfacine (specific α -2a adrenoceptor agonist) restores natriuresis in experimental cirrhotic ascites resistant to Clonidine and standard diuretics. **Oral communication** at: Associazione Italiana Studio del Fegato (Italian Association for the Study of the Liver) (AISF), Rome, Italy, February 2015.
2. Sansoè G, Aragno M, Mastrocola R, Parola M. Increased Natriuretic Effects of α 2- vs. α 1-adrenergic Agonists, Alone or in Combination with Standard Diuretics, in Rats with Experimental Cirrhosis and Ascites. **Oral communication** at: 58th annual meeting of American Association for the Study of Liver Diseases (AASLD), Boston, Massachusetts, U.S.A., November 2014.
3. Sansoè G, Aragno M, Mastrocola R, Mengozzi G, Paternostro C, Parola M. Key role of the enzyme Chymase in the hepatic production of angiotensin II and in the development of liver cirrhosis: animal and human data. **Oral communication** at: 57th annual meeting of American Association for the Study of Liver Diseases (AASLD), Washington D.C., U.S.A., November 2013.
4. Sansoè G, Aragno M, Mastrocola R, Novo E, Parola M. Chymase-dependent production of kidney angiotensin II is a key factor in the development of sodium retention and ascites in experimental liver cirrhosis. **Lecture presentation** at: Digestive Disease Week (DDW), San Diego, California, U.S.A., May 2012.
5. Sansoè G, Aragno M, Mastrocola R, Paternostro C, Parola M. Key role of non-ACE-dependent angiotensin II in the development of experimental liver cirrhosis and its complications. **Lecture presentation** at: Digestive Disease Week (DDW), San Diego, California, U.S.A., May 2012.
6. Sansoè G, Aragno M, Mastrocola R, Mengozzi G, Paternostro C, Smedile A, Rizzetto M, Parola M. Key role of chymase in the hepatic production of angiotensin II and in the development of experimental liver cirrhosis and its complications. **Oral communication** at: European Association for the Study of the Liver (EASL), Barcelona, Spain, April 2012.
7. Sansoè G, Aragno M, Mastrocola R, Mengozzi G, Paternostro C, Smedile A, Rizzetto M, Parola M. Key role of chymase in the hepatic production of angiotensin II and in the development of experimental liver cirrhosis and its complications. **Oral communication** at: Associazione Italiana Studio del Fegato (Italian Association for the Study of the Liver) (AISF), Rome, Italy, February 2012.
8. Sansoè G, Aragno M, Novo E, Mastrocola R, Parola M. Candoxatrilat. *J Hepatol* 2004; Vol. 40; Suppl. 1: 13. **Oral communication** at: 39th meeting of the European Association for the Study of the Liver (EASL), Berlin, Germany, April 2004.
 24. Sansoè G, Silvano S, Mengozzi G, Touscoz A, Smedile A, Rosina F, Rizzetto M. Inappropriately low angiotensin-converting enzyme (ACE) plasma levels: a factor worsening kidney function and survival rate in subsets of patients with decompensated cirrhosis. **Oral communication** at: 10th National congress of Digestive Diseases (SIGE-SIED-AIGO), Turin, Italy, March 2004.
 25. Sansoè G, Aragno M, Smedile A, Danni O, Rizzetto M. Natriuretic and aquaretic action of candoxatrilat, a new inhibitor of neutral endopeptidase (atriopeptidase), in the rat model of CCl₄-induced cirrhosis. **Oral communication** at: 13° Convegno "Attualità e

- prospettive in epatologia", Padua, Italy, November 2003.
26. Sansoè G, Aragno M, Mastrocola R, Silvano S, Touscoz G, Mengozzi G, Smedile A, Danni O, Rizzetto M. Effects of Candoxatrilat, a neutral endopeptidase inhibitor, on sodium and free water urinary excretion in the rat model of CCl₄ –induced cirrhosis with ascites. **Oral Communication** at the annual Digestive Disease Week (DDW), Orlando, Florida, U.S.A., May 2003.
 27. Sansoè G, Silvano S, Mengozzi G, Todros L, Smedile A, Touscoz G, Rizzetto M. Inappropriately low angiotensin II generation: a factor determining impaired renal function and reduced survival in patients with decompensated liver cirrhosis. **Oral Communication** at the annual Digestive Disease Week (DDW), Orlando, Florida, U.S.A., May 2003.
 28. Sansoè G, Aragno M, Mastrocola R, Silvano S, Mengozzi G, Smedile A, Danni O, Rizzetto M. Effects of Candoxatrilat, a neutral endopeptidase inhibitor, on sodium and free water urinary excretion in the rat model of CCl₄ –induced cirrhosis with ascites. **Oral communication** at the 9th National congress of Digestive Diseases (SIGE-SIED-AIGO), Florence, Italy, February 2003.
 29. Sansoè G, Aragno M, Mastrocola R, Silvano S, Mengozzi G, Smedile A, Touscoz G, Danni O, Rizzetto M. Hormonal and renal effects of Candoxatrilat, a neutral endopeptidase inhibitor, in the rat model of CCl₄ –induced cirrhosis with ascites. Digest Liver Dis 35 (Suppl. 1): A6, 2003. **Oral communication** at the 36th Annual Meeting of the Italian Association for the Study of the Liver (Italian Association for the Study of the Liver) (AISF), Rome, Italy, February 2003.
 30. Sansoè G, Silvano S, Mengozzi G, Todros L, Smedile A, Touscoz G, Rizzetto M. Inappropriately low Angiotensin II production: a factor determining impaired renal function and reduced survival in patients with decompensated liver cirrhosis. Digest Liver Dis 35 (Suppl. 1): A7, 2003. **Oral communication** at the 36th Annual Meeting of the Italian Association for the Study of the Liver (Italian Association for the Study of the Liver) (AISF), Rome, Italy, February 2003.
 31. Sansoè G, Aragno M, Mastrocola R, Silvano S, Mengozzi G, Smedile A, Danni O, Rizzetto M. Natriuretic and aquaretic action of candoxatrilat, a new inhibitor of neutral endopeptidase (atriopeptidase), in the rat model of CCl₄ –induced cirrhosis. Annali Italiani di Medicina Interna 17 (Suppl. 2): 9S, 2002. **Oral communication** at the 103rd Annual Meeting of the Italian Society of Internal Medicine (SIMI), Milan, Italy, November 2002.
 32. Sansoè G, Touscoz A, Silvano S, Smedile A, Bonardi L, Rizzetto M. Evidences for a dynamic aldosterone-independent distal tubular control of renal sodium excretion in compensated liver cirrhosis. GUT 51 (Suppl. III): A68, 2002. **Oral communication** at the 10th United European Gastroenterology Week (UEGW), Geneva, Switzerland, October 2002.
 33. Sansoè G, Silvano S, Touscoz A, Mengozzi G, Biava A, Smedile A, Bonardi L, Rizzetto M. Detailed nature of aldosterone-dependent perturbation of renal tubular function in non-azotemic human cirrhosis with ascites. GUT 51 (Suppl. III): A2, 2002. **Oral communication** at the 10th United European Gastroenterology Week (UEGW), Geneva, Switzerland, October 2002.
 34. Sansoè G, Biava A, Silvano S, Battista S, Rosina F, Smedile A, Bonardi L, Rizzetto M. Systemic nitric oxide production: a mechanism supporting the glomerular filtration rate in non-azotemic human cirrhosis? **Oral communication** at the meeting "Physiopathology and therapy of the circulatory dysfunctions in internal medicine". Padua, Italy, May 2001 → Awarded the KNOLL prize as best communication of the meeting.
 35. Sansoè G, Biava MA, Silvano S, Battista S, Touscoz A, Rosina f, Smedile A, Todros L, Bonardi L, Rizzetto M. Systemic nitric oxide production: a mechanism supporting the glomerular filtration rate in non-azotemic human cirrhosis? **Oral communication** at: 12th meeting of the R. Farini Foundation, Padua, Italy, february 2001.
 36. Sansoè G, Biava MA, Silvano S, Battista S, Rosina F, Smedile A, Todros L, Rizzetto M, Bonardi L. Evidence of post-glomerular arterial vasoconstriction as a mechanism preserving glomerular filtration rate in patients with cirrhosis and recent ascites development. Digest Liver Dis 32 (Suppl. 2): A82, 2000. **Oral communication** at the 6th National Congress of Digestive Diseases (SIGE-SIED-AIGO), Perugia, Italy, november 2000.
 37. Sansoè G, Biava MA, Rosina F, Smedile A, Todros L, Rizzetto M, Bonardi L. Loss of

- tubular-glomerular feedback as a further mechanism of sodium retention during upright posture in preascitic liver cirrhosis. **Oral communication** at: 2nd annual meeting annuale of the Subalpine Gastroenterology Association (ASG), Vicoforte di Mondovì, Italy, march 2000.
38. Sansoè G, Biava MA, Rosina F, Smedile A, Todros L, Rizzetto M, Bonardi L. Loss of tubular-glomerular feedback as a further mechanism of sodium retention during upright posture in preascitic liver cirrhosis. *Digest Liver Dis* Vol. 32, no. 1, 88, 2000. **Oral communication** at: 33rd annual meeting of the Italian Association for the Study of the Liver (AISF), Rome, Italy, february 2000.
